PROFILE

- Programming and full stack development, both are my passion and hobby. I love creating things, getting challenged, and solving problems.

- I am studying Computer Science at KEA for my BA degree. I enjoy learning new frameworks, languages, and technologies whenever given the opportunity.

- I consider myself to be a friendly person always looking to make other people's daily lives easier or more convenient in some way. I enjoy meeting new people and working in groups to accomplish anything.

EXPERIENCE

August 2018 - January 2019
Internship at TrainAway
- 5th semester University Internship at TrainAway.
- Worked as IT Assistant using:
  Wordpress, PHP, Python and
  various business tools to improve outreach
  and increase sales.

November 2018 - January 2019
Freelance work - Triatek/Johnson controls
- Worked with the Product Manager to create a reusable algorithm with Python to generate:
  Model Numbers, their descriptions, and
  their prices

January 2019 - May 2019
Student assistant at VEO
- Worked as a student Assistant doing basic development and system administration tasks.
- Primarily used Node.js, Django to develop small quality of life features

May 2019 - Present
Full Stack Developer at Procedural
- Currently working as a full stack developer at procedural using Django REST and React.js
- Working in an Agile methodology and collaborating closely with clients.

EDUCATION

AP: Computer Science (2016 - 2019)

BA: Software Development (2019 - 2020)

- Software design, construction, testing
  - Learned basic design methodologies and the theory behind the development lifecycle
- System integration
  - Learned about how to integrate APIs of different languages together in an application
- Databases for developers
  - Learned about Relational and Non-relational databases and the advantages to each.
- Development of large systems
  - Learned about theory behind developing large scale systems and tools used during the process, such as Docker, Jenkins, and Cloud deployment solutions

SKILLS

Frameworks:
- Spring MVC
- Node.js
- Django/Django REST

Programming Languages:
- Java
- Javascript
- Python

Other Technical Skills:
- Git
- Adobe Photoshop/Illustrator
- Amazon AWS
- HTML/CSS

Strengths:
- Passionate and Motivated.
  I love challenges and always strive to complete a task in the most best and most efficient manner possible.

- Social and polymathic
  I enjoy meeting up with people outside of school and work. I also have a wide range of interests and hobbies: football, cooking, music, computers, games, and travelling.

- Fluent in English and Lithuanian, intermediate in Danish and Spanish.
